SUMMARY

As a motivated software development student from LaunchCode's own Software Development program, I am passionate about using technology to create meaningful impact and solve real-world problems. My technical skill set touches front-end and back-end technologies, with time spent in JavaScript, HTML, CSS, and React, directly aligning with the job description's desired qualifications. My background includes experience with responsive web applications and a strong foundation in technical problem-solving and working well in teams. Beyond my software development skills, I bring a unique perspective from my extensive background in audio production, which has cultivated my ability to approach technical challenges with creativity and precision. I am eager to join a team that values innovation, continuous learning, and collaborative problem-solving. I am committed to writing clean, maintainable code that can help optimize organizational processes and support mission-critical solutions.

LANGUAGES | FRAMEWORKS | TOOLS

JavaScript, HTML, CSS, Java, mySQL | React, Spring | VSCode, IntelliJ

PROJECT EXPERIENCE

Homeschool Day Tracker - LaunchCode Front End Development Project

https://homeschool-day-tracker.netlify.app/

- A web app designed to help Teachers track students daily learning and activities
- Built the user interface for the logging form and the logic to handle the input.
- Designed and built the viewer page to make reviewing previously recorded logs efficient and easy.
- Full Project Tech Stack: Javascript, React, CSS, HTML

WORK EXPERIENCE

Credit Analyst - Jersey State Bank

September, 2022 - Present

- Collaborate with loan officers and management on lending decisions
- Analyze financial data to determine credit risk and recommend loan approvals/denials
- Evaluate credit reports and financial statements to assess creditworthiness
- Prepare credit analysis reports and loan summaries
- Ensure compliance with lending regulations and policies
- Monitor loan portfolios for potential credit risks
- Stay up-to-date on market trends and economic conditions.

Technical Director — Cherry Hills Church

July, 2014 - August, 2022

- Led live event audio operations - with expertise in live mixing and audio production for broadcast and recorded media
- Worked with IT team to integrate network-connected AV/L systems using Dante Networking and NDI
- Designed, implemented, and maintained AV/L systems across multiple facilities
- Collaborated with electricians to plan and execute electrical infrastructure upgrades for stage lights
- Managed vendor and installer relationships to ensure seamless system integration
- Ensured high-quality, low-maintenance systems to support worship and events
- Supervised and trained a team of volunteer technicians, empowering them to operate and maintain AV/L equipment for live events and services

EDUCATION

LaunchCode, Software Development, 2026
Hannibal LaGrange University, 2010, Bachelor of Arts in Biblical Studies
